Acknowledgments

Everyday Arabic Idioms is the product of countless hours and cycles of revising, modifying, and updating. Truly, without the assistance and expertise of the following individuals, this book would not have become a reality.

First and foremost, I would like to thank all of my Arabic language students and friends for trusting me and believing in me as their teacher. They have inspired and motivated me to improve my knowledge and to write this book.

Thanks to Duaa Allan for all of the early mornings and late nights whilst we created Deewan together. I also want to thank my wonderful team at Deewan for their contributions to this book.

I would like to express my gratitude to Adriana Wojtukowicz for her relentless dedication in designing this book.

Thanks to my family for their patience whilst I sacrificed my time with them to tackle this labour of love, and especially my mother, who has taken the brunt of that sacrifice. I owe all of my accomplishments to her.

Sincerely,

Mohammad K. Ayaseh

Introduction

Welcome to Everyday Arabic Idioms. This book is designed to help you expand your knowledge of idioms, expressions and phrases in Levantine Arabic. My goal is to help you expand your vocabulary and to be able to speak and write more fluently.

The best way to learn new vocabulary is in context. That's why each idiom comes with some example sentences. You'll also find a simple explanation in English for each one as well as the literal translation of the Arabic idiom.

With idiom meanings, example sentences, and clever illustrations depicting scenes and characters for each idiom, this multicultural book explains common idioms in a straightforward and appealing way. In addition, this book provides recordings of the Arabic and English idioms along with various examples of usage to help students with pronunciation and learning. The different meanings and literal translations of each idiom help the user understand not only its linguistics, but also the cultural core of idioms in Arabic, strengthening the users understanding of the dynamic of Arabic language in general.

To get the most bang for your buck, be sure to do the following:

- Review frequently.
- Use the idiom or the phrase in real life as soon as you learn it.
- Don't be nervous about making mistakes; that's how you'll get better at Arabic.
- Consider studying with a friend to help each other stay motivated.

Good luck and I wish you well on your journey to becoming more proficient with idioms in Levantine Arabic!
