Acknowledgments

This podcast guide is the product of countless hours and cycles of revising, modifying, and updating. Truly, without the assistance and expertise of the following individuals, this book would not have become a reality.

First and foremost, I would like to thank all of my Arabic language students and friends for trusting me and believing in me as their teacher. They have inspired and motivated me to improve my knowledge and to create this book.

Thanks to Duaa Allan for all of the early mornings and late nights whilst we created Deewan together. I also want to thank my wonderful team at Deewan for their contributions to this book.

I would like to express my gratitude to Adriana Wojtukowicz for her relentless dedication in designing this book.

Thanks to my family for their patience whilst I sacrificed my time with them to tackle this labour of love, and especially my mother, who has taken the brunt of that sacrifice. I owe all of my accomplishments to her.

Sincerely,

Mohammad K. Ayaseh

Introduction

With around 50 million speakers worldwide, Levantine Arabic is among the most popular and most recognised colloquial Arabic dialects. Used in all informal settings including at home, at work, among friends and family, and in the community, learning Levantine Arabic is a key to navigating everyday life in the Levant region, as well as, understanding its culture. It shares 80% of the lexicon of Modern Standard Arabic (MSA), making it an easy dialect to learn for non-native speakers. This has led to an increasing demand and interest to learn Levantine Arabic, and Deewan's Levantine Arabic Podcast Guied meets this demand.

The first of its kind, our podcast provides educational, yet engaging, content where in each episode, one of our teachers hosts a student learning Arabic and they discuss cultural topics, including various aspects of life like: veganism, racism, parenting, and several other topics we believe are of interest to our students. The podcast provides content that caters to Arabic learners of all levels; beginner, intermediate, and advanced, covering any essential linguistic needs in an engaging and practical way.

Accompanying each of our podcast seasons, is this book, which we believe is an integral part of our language teaching process. The first of its kind, this podcast book contains a glossary of terms from each episode and written exercises relevant to each episode's audio content. Through the book, we make learning Arabic an engaging experience through providing immersive cultural content.

How to use this book

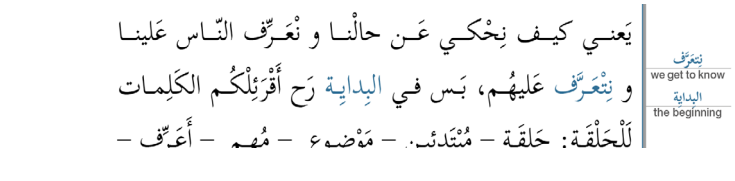
Deewan Arabic Podcast is a unique resource, created by students for students, to help in developing their Arabic language fluency. This book is a guide to fully understand and benefit from Deewan Arabic Podcast, even if you are a beginner student! Each chapter is dedicated to one of the episodes.

1. On the first page of each episode, you can find a unique QR code that will lead you to the recording.

2. We recommend you listen to each episode at least three times. The first time, listen to the episode audio only and try to understand as much as you can. Even if you can only catch a few words, it is good to let your ears listen to Arabic!

3. For the second, follow the recording while reading the Arabic transcript - it will help you see how the words are written and learn new vocabulary, as well as see the full content.

4. The Arabic transcription was carefully designed to help you understand the text. We chose important vocabulary as keywords bolded in blue, and their translations can be found in the text and the margins. See the picture below:



5. The keywords are available for you to listen to at the beginning of each episode audio, and can be found at the end of each episode transcript.

6. After completing the second listen-through, open the translation section and check if you fully understood the conversation. Now listen for a third time, and read the English text as you listen. It works like movie subtitles and will allow you to fully benefit from each recording.

7. Every episode has a set of exercises to help you practice your vocabulary, in addition to your listening and reading comprehension skills.

8. A glossary of words can be found at the end of the book (page 70).

كيف أَعَرِّف عَن حالي!

This episode focuses on self-introduction. You'll learn how to introduce yourself in Arabic, including how to say your name, where you're from, and a little about your hobbies and interests. It's perfect for beginner-high learners who want to build confidence in introducing themselves in Arabic.

مَرْحَبا و أَهْلا و سَهْلا فيكُم في حَلْقَة جْديدِة مِن بودكاست ديوان لَلْمُبْتَدِئين. اليوم رَح نِحْكي عَن مَوضوع بَسيط و كتير مُهِم لَأَي حَدا عَمْ يِتْعَلَّم اللُّغَة العَرَبِيِّة، و هُوِّ: كيف أَعَرِّف عَن حالي.
